

Davis Brown

About

User experience designer and artist inspiring creativity through emerging technology. Generative AI is transforming the creative process, and I am thrilled to be at the forefront of designing and launching innovative tools that will drive the next wave of creativity across the globe. I am committed to making the impossible possible for creatives, empowering them to tell stories and express themselves in ways that were previously unimaginable.

Experiences

User Experience Designer, AI and Digital Imaging

Adobe, Sept 2020 – Present (2 years 10 months)

User experience design leader for AI-first experiences at Adobe in Photoshop and Neural Filters. I help drive the vision and strategy for integrating gentech into Adobe's core flagship applications.

Front-end Developer and Designer

Davis Taylor Brown, Part-time, Aug 2015 – 2020 (5 years)

Freelance web developer and designer, I have worked with a wide range of businesses in Los Angeles, and around the world to create stable, flexible, and responsive websites.
