Miro  
Jira

## About

Staff Product Designer at Adobe with 10+ years in product design, including 6 years shaping AI-powered creative tools used by millions. I thrive working alongside people who move fast, build boldly, and believe new technology can change how we interact with the world. My work includes Generative Fill and Expand (200M+ images generated, 1.2M downloads in two weeks, TIME Best Invention 2023), pitching the first partner model integration across all Adobe products, and the first text-to-image experience that evolved into Adobe Firefly. Five patents filed. Recognized at Adobe MAX and produced two of the most viewed Photoshop TikToks.

## Experience

Adobe	5 years 6 months
Staff Product Designer, Generative AI	Feb 2026 – Present
Senior Product Designer, Generative AI	Jun 2024 – Feb 2026
